

ISMS PERFORMANCE DASHBOARD

VertexOne Digital Services

Prepared By: Junior GRC Analyst
Status: Reviewed at Management Review — Updated Monthly

1. Control Implementation

Control Status	Count	Percentage
Controls Operational	10 of 25	40%
Controls In Progress	8 of 25	32%
Controls Not Started	7 of 25	28%
Total Controls	25 of 25	100%

2. Key Performance Metrics

Metric	Current	Previous Period	Trend
MFA Enrollment	100%	62%	Improving
Awareness Training Completion	89%	68%	Improving
Critical Vulnerability SLA Compliance	96%	88%	Improving
Backup Restoration Tests Completed	1 (This Cycle)	0	Improving
Vendor Security Addenda Signed	4 of 4	2 of 4	Complete

s

3. Audit Trend

Internal Audit - Cycle 1

- **Total Findings:** 5
- **Major Findings:** 2
- **Minor Findings:** 3
- **Current Status:** All findings closed or in verified monitoring

External Certification - Stage 2

- **Major Nonconformities:** 0
- **Minor Nonconformities:** 2
- **Opportunities for Improvement (OFIs):** 3

Overall Audit Trend: Positive : no major external nonconformities identified, with internal findings progressing toward closure or verified monitoring.

4. Incident Trend

Security Incidents Reported: 0

No security incidents were reported during the measurement period.

5. Risk Trend

R-001 and R-004

Residual risk for R-001 and R-004 is expected to decrease at the next formal risk reassessment following completion and verification of the associated control implementations.

6. Management Review Summary

The ISMS demonstrates an overall positive performance trend. MFA enrollment, security awareness training, vulnerability SLA compliance, backup testing, and vendor security controls have all improved compared with the previous measurement period.

Control implementation currently stands at **40% operational**, with **32% in progress** and **28% not yet started**. Continued monitoring and completion of outstanding controls should remain a management priority.
