

Nonconformity Register

ID	Classification	Description	Status
F-001	Major Nonconformity	Backup restoration capability never verified	Open
F-005	Major Nonconformity	Vulnerability scanning inconsistent on highest-priority systems	Open
F-002	Minor Nonconformity	Privileged access review overdue	Open
F-003	Minor Nonconformity	Security awareness completion below target, regionally inconsistent	Open
F-004	Minor Nonconformity	Supplier security reviews incomplete	Open

Classification	Escalation Rule
Major Nonconformity	Must be closed and independently verified before the ISMS can be considered ready for external certification.
Minor Nonconformity	Tracked to closure but does not individually block certification readiness.
